

LINCOLN VILLA SENIOR CENTER

Jacksonville, Florida

Client/Contact:

City of Jacksonville
Department of Public Works
Contact: Alice Jones
(904) 591-9625

Location:

Jacksonville, Florida

Project Size:

8,575 SF

Completion Date:

Building Spring 2013
Roof Summer 2014

Construction Cost:

\$631,694.00

The Challenge:

To correct Handicap Accessibility deficiency issues for a 35 year old facility. In addition, roof leaks, HVAC deficiencies, room expansion and site upgrading were critical issues to address.

Exterior Sketch

The Solution:

New fencing, pavement repair, and sidewalk repair are part of the new work. The addition of a 225 SF shade structure over the playground slide feature is also accomplished in this work.

The Restroom Cores are completely reworked to be accessible. The suspended acoustical ceiling in the Activity Rooms is removed thus exposing the original linear metal ceiling system.
